### EXPRESSIONS OF INTEREST – AUT NETBALL COACHES AND MANAGERS

---

AUT is currently seeking expressions of interest for experienced, enthusiastic and professional coaches and managers for our netball teams in 2019.

AUT is expecting to enter six teams in to the Netball North Harbour club competitions in 2019.

---

AUT is one of the country's leading Universities and provides plentiful sporting opportunities for all of our students both on and off campus. Our top teams traditionally consist of a strong talent pool of players from around the country.

Our ideal coaching candidates will have previous coaching experience; excellent technical, organisational and interpersonal skills are crucial. Hours are variable depending on the team, but it is expected that the commitment will be approximately around 4 hours per week. This will generally consist of one weekly training and one game per week.

The commitment requires attendance at March trials (dates tbc), weekly trainings, and all games in their team's respective competitions. All coaching resources, including personal uniform and equipment, for trainings and games will be provided where possible.

As the leading Sport & Recreation University in New Zealand, coach development is important for all our coaches. All coaches will be encouraged and given the opportunity for professional development through attendance at the appropriate NNH/NNZ coaching development workshops and seminars.

Positions will be on a voluntary basis, however, AUT can provide small reimbursement for travel and time. In addition any coaches who also wish to play for AUT while also coaching will have their playing fees waived.

Coaches are encouraged to appoint their own manager, or an assistant coach should they see the need for one.

Commitment to the character of AUT and adherence to contractual obligations are required.

AUT Sport would like to have all team coaches and managers appointed by **January 2019**.
