

RANGITOTO NETBALL CLUB

Rangitoto Netball Club is an established club that has been participating in the Netball North Harbour Association competition for over 40 years.

During the 2018 season, the club had eight teams participating at Netball North Harbour in grades ranging from Premier One to Senior Seven. Our club caters for players of all abilities, from competitive training teams, to development teams and non-training but competitive social teams.

As a club we place a strong emphasis on nurturing and developing our young talent. We are interested in recruiting players who have recently left school, or those in higher level senior school teams who wish to receive strong coaching whilst experiencing netball at another level.

We encourage membership of players at all levels and ages, be it competitive, representative or social. Our teams are supported by qualified and experienced senior and age group coaches.

We look to develop our club coaches and umpires and offer support to those who attend the NNH training modules by subsidising the costs of these courses.

We are a friendly and stable club who encourage participation in the activities of the club, at all levels. We are also very proud that many of our players and coaches have been with us over a long period of time.

Trials for teams 1 to 3 will commence late January 2019 and run through early February, with mid-February trials for the remainder of the club teams. Confirmed trial dates and details will be published on our website www.sporty.co.nz/rangitotonetballclub early in the New Year. Our club fees for the 2019 season will also be published on our website in the New Year.
